

How to set up YOUR Religious Images mural

1. Before setting up ANY Religious Image mural, you must first draw a guideline for the top of your image using a level and a pencil. Make sure the line is centered in the area you would like to place your mural.

2. Using one or two extra people to hold up your mural, take a staple gun and begin stapling your image to the wall, beginning in the center and working your way outwards. For the best look we recommend hiring a professional wallpaper hanger to install your image. If not, continue to step 3.

3. Be sure to pull your image while stapling it to prevent wrinkling. Before stapling the bottom down, it would also be a good idea to step back and check the positioning of your mural.

4. For added decoration, nail wide moulding around the outside of the image to give your mural a "framed" look. You are now ready to enjoy your new mural!!!

Other things to keep in mind while installing your mural...

*Double sided tape is useful for putting together murals that are more than one piece

*Experiment with the lighting on your mural to best showcase your image

*Cleaning of your image consists of nothing more than wiping it over with a wet lint free cloth
